RUPESH GHALE

rupeshghale00@gmail.com 9846223415 Kathmandu, Budhanilkantha, Nepal Github

SUMMARY

Pre-final year Bachelor of Information Technology (BIT) student with hands-on experience building full-stack web applications using React, TypeScript, Laravel, and PostgreSQL. Passionate about software engineering, REST APIs, and modern web technologies. Seeking an internship or junior developer role to apply and expand my technical skills.

EDUCATION

Bachelor of Information Technology 2023 – 2026
KIST COLLEGE
current Semester-6

Diploma in Civil Engineering 2019 – 2022
Kathmandu Institute of Technology
67.61%

SKILLS

Technical Skills
- JavaScript
- TypeScript
- SQL
- PHP

Backend
- Laravel
- REST APIs

Tools
- Git
- GitHub

Soft Skills
- Communication, Leadership, Public Speaking and Teamwork

Frontend
- React.js
- HTML5
- CSS3
- Tailwind CSS

Database
PostgreSQL

Concepts
- OOP
- CRUD
- Authentication
- Database Design

COURSEWORK

- Programming
- Database Management System
- Web Development
- Computer Networks
- Operating System
- Artificial Intelligence Fundamentals

PROJECTS

AI Medicine Finder 2026
React.js, TypeScript, Laravel, PostgreSQL, Tailwind CSS, REST API
- Built a full-stack healthcare platform with React, Laravel, and PostgreSQL supporting medicine search, inventory management, pharmacy management, authentication, and AI-powered recommendations.
- Engineered secure RESTful APIs with Laravel, PostgreSQL, and Laravel Sanctum, implementing authentication, authorization, and complete CRUD functionality.
- Designed responsive user and admin dashboards using React.js, TypeScript, and Tailwind CSS with interactive charts, search, filtering, and AI chatbot integration.
- Applied modern full-stack development practices including component-based architecture, REST API integration, state management, and relational database design.

Ant Smasher Game 2025

JavaScript, HTML5 Canvas, CSS

- Developed an interactive 2D game utilizing the Canvas API for real-time rendering and sprite animation.
- Implemented custom collision detection algorithms for border boundaries, inter-ant interactions, and precise-mouse-click accuracy.
- Built a high-performance game using Object-Oriented Programming (OOP) principles to manage multiple independent sprite entities.

PORTFOLIO

React.js, Tailwind CSS

- Built a responsive personal portfolio showcasing projects, skills, resume, and GitHub repositories.
- Implemented responsive layouts and reusable components.
- Integrated contact section and project showcase.
